## Professional Grade Ice Melt

### Professional Grade Ice Melt

With a self-initiating chemical reaction that starts melting ice and snow on contact, IceAway Max is the deicing choice that gets straight to work. To learn more, call or visit us online:

913-344-9216 | [compassminerals.com](http://compassminerals.com)

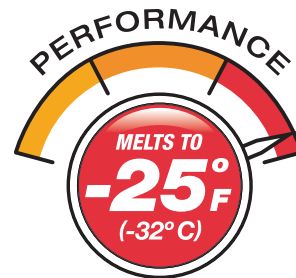

High purity, 100% calcium chloride that melts on contact

Exothermic reaction generates heat to improve melting performance

Melts ice at temperatures as low as -25° F/-32° C

Leaves no powdery residue

Safe when used as directed on air-entrained cold weather concrete that is one year old
